

California Codes C³ Credential Program Registration Form

California Building Officials provides a credential program to recognize those individuals who have successfully completed a series of prescribed courses on amendments to the California Building Safety Code and related laws enforced by local building departments. The California Building Codes Credential is available to all building industry personnel and is renewable every three years.

Courses must have been completed within three years and must be documented by submitting a copy of the CTI course completion certificate. Renewal of the Credential Program is \$30. Course requirements are as follows: One Required Course (Either CA Codes or State Laws) and Two Electives.
