

# Plan Check for Solar Photovoltaic and Energy Storage Systems - 0.6 CEUs

ICC PPP Course #: 19749 – 0.6 CEUs

AIA Course #: 1: 2019 – 6 LUs

This course covers the elements required to perform plan check of solar photovoltaic (PV) systems, including structural mounting, fire service access, and electrical aspects needed for a complete plan submittal. Attendees will be able to recognize the key elements necessary for a complete plan submittal for a solar PV system. A set of guidelines will be used as a template for these elements. Attendees will learn specific details on what a code-compliant plan includes for residential and small commercial solar PV installations. Energy storage systems (ESS) will also be covered as these systems are commonly included with or added to PV systems. As solar PV systems are constantly changing and improving, this course will update enforcement on the latest codes and design trends that impact this dynamic field. ESS will also be covered as these systems will be incorporated into many PV systems over the next several years.
